For three days, PiscinaSpain brings together **over 7,000 professionals** in the wonderful city of Malaga, **seeking the latest innovations and designs** in pool construction, and especially the latest technology for management and maintenance.

Pool builders and installers, architecture firms, developers, construction companies, hotels, campsites, sports clubs, public facilities, wellness and spas, engineering firms, and water parks, among others, **attend PiscinaSpain in search of industrial and technological partners** for the world of pools and spas. A comprehensive range of solutions will be complemented with water management technology and a full range of "outdoor" solutions including pergolas, garden furniture, etc.
